Call anonymously with information about crime

Crimestoppers aren't interested in your name, just what you know - so make sure you have as much detail about the bike and the rider as possible including:

- **Description of who is riding the bike**
- **Where the bike is being used**
- **When is it used** (time of day e.g. evening, daytime, weekend)
- **Details about the vehicle** (e.g. make, model, colour etc)
- **Who owns the vehicle and where it may be stored** (if known)

Riding off-road vehicles in public open spaces is dangerous, noisy and illegal, so tell us where they are, and we can take them off the streets before someone is hurt, or they're used in criminal activity.

Crimestoppers is a charity independent of the police.
